## SKILLS

### Technical

Adobe Illustrator, Photoshop, InDesign, Technical Drawings, Sewing, Textiles, Rapid Prototyping, Digital & Analog Sketching, Color Theory, Model Making, SolidWorks, Rhinoceros, Fusion 360, Keyshot

### Design Research

Market Analysis & Research, CMF Exploration, User Testing & Interviews, Concept Presentation

### Other

Woodworking, Photography, Watercolor, Conversational in French, AIARE 1 Certified

## INTERESTS

### Volunteer

Website Designer for Kitchen Table Advisors  
Founding Member of Dirty Dozen Urban Farm Club  
DJ for RainyDawg Radio  
Volunteer at the UW Farm

### Activities

Skiing (Alpine and XC), Cycling, Running  
University of Washington Rowing  
Green Lake Crew  
Club Volleyball  
Varsity Volleyball and Track

## ACHIEVEMENTS

UW IDSA Student Merit Finalist  
Rometti Award Finalist  
Dean's List (GPA above 3.5) for 8 quarters  
Varsity Volleyball Captain

## EDUCATION

2019 **University of Washington — Division of Design**  
– BDes in Industrial Design

## EXPERIENCE

Apr 2021–Present **Industrial Designer – Worldwide Inc.**

- Designing and updating pet products to elevate experiences for pets and their owners through solution-based designs.
- Leading sustainable product development through implementing modular product concepts for longevity of product life cycle.
- Creating and adjusting high fidelity photo realistic renderings quickly to accelerate production process on new concepts.
- Efficiently creating product specs, building product CAD models, and sketching innovative pet supply solutions to communicate ideas to the product development team and manufacturers.

Sept 2020–Apr 2021 **Designer and Product Developer – Ruggette PBC**

- Designed outdoor sustainable women's gear and apparel from ideation to production through brainstorming, mood boards, market research, sketching, prototyping, and tech packs.
- Collaborated with ambassadors for research and product development.
- Communicated with factories for sourcing, revisions and future production while adhering to allocated budget for product development.

Mar 2019–Mar 2020 **Junior Industrial Designer — Industrial Alchemy**

- Designed innovative and patent pending backpacks, bags, and camp gear for a range of outdoor companies including Eddie Bauer, Vertx, and Step22.
- Effectively communicated concepts through detailed sketches, technical drawings, and prototypes constructed from original patterns.
- Worked alongside the lead designer to create tech packs, revision documents, and colorways to send to factories and clients for production.

June–Dec 2017 **UW Farm Staff — University of Washington Farm**

- Coordinated with three other farmers to provide organic food and foster community for students and the Greater Seattle Area.
- Guided volunteers and empowered community members to continue the mission of sustainable and community supported food systems.
- Efficiently maintained one and a half acres of growing space through crop planning, planting seeds, harvesting, and fulfilling orders.
